

Crash Courses

We run Crash Courses for children and adults during the summer holidays. Each course is run over 5 consecutive days, with 1/2 hour sessions at the same time each day. Our next crash courses will be held in August 2010 at Holy Trinity School.

A Crash Course can provide an ideal chance for children and or adults already having swimming lessons to build on skills they are currently learning. They are also equally as effective as an introduction to swimming lessons, or on a “one-off” basis to brush up on skills previously learned.

Our Crash Courses are open to children and adults who are already attending Neptune lessons **and** to those who are not.
